

---

We encourage all students, age seven and older to take at least two classes weekly to ensure maximum benefit from their training. This is the normal standard in all professionally oriented dance schools. It is recommended, but not mandatory. Quality teaching remains in all classes; every student deserves the same high level of teaching and attention, regardless of their dance goals!

Different classes and levels are available for children, teens and adults.

## Creative Movement

A half hour class which introduces basic rhythms and movements in a fun, nurturing environment. In a playful atmosphere, children discover the joy of dance while developing basic motor skills, coordination, individual creativity, and basic dance terminology.

## Pre-Dance Combo

A one-hour class that includes both ballet and tap. Combination classes help children to explore the basic elements of dance while having fun moving, and hearing a variety of music. This class will help students develop concentration, music appreciation, social skills, self-confidence and coordination. Basic ballet positions are taught, as well as basic tap technique.

## Hip-Hop for Tots

A half hour class which introduces fun rhythms and movements to their favorite high-energy music.

## Ballet I, II, III teen/adults (6 years old & up)

Students are being introduced to formal study of classical ballet through age-appropriate skill development, creative expression and the relationship between music and dance. Using French terminology, young dancers learn the vocabulary of classical ballet, technique and emphasis on body placement.

## Hip-Hop

A fun and funky dance class that incorporates rhythmic movement to popular music of today. Hip-hop is a high-energy dance form which will keep students in shape as they learn new upbeat moves.

## Tap

Students learn tap terminology and to apply rhythm and timing into a tap routine. Tap dance develops a keen sense of rhythm and timing, as well as control, balance, and coordination.

## Jazz

Various forms of movement and wide terminology utilized in this form of dance. These classes focus on increased flexibility, musicality, control and balance, and progression of dance steps across the floor.

## Modern

Contemporary dance movements with self-expression.

## Zumba®

The Zumba® program fuses hypnotic Latin rhythms and easy-to-follow moves to create a one-of-a-kind fitness program that will blow you away. The routines feature interval training sessions where fast and slow rhythms and resistance training are combined to tone and sculpt your body while burning fat. Add some Latin flavor and international zest into the mix and you've got a Zumba® class!
